

# Multilingual Support Services

**Specialists in Technical and Patent Translations that Will Exceed Your Expectations**

## 1 TTDC will provide a solution!

Translators with extensive knowledge of automotive technologies will provide services as your **dedicated technical translation personal assistant**.

The same translator is in charge of the entire process from quotation to delivery.

- (1) The same person remains in charge.
- (2) We will follow all your detailed translation instructions.
- (3) Translation is completed with appropriate consultation.
- (4) We will apply your requests from one job to the next job.
- (5) We will work closely with you to improve quality.

## 2 Ideal for the following situations

### Technical papers:

We will translate and lay out your paper according to the rules of the publication or exposition. We also offer a broad range of support, including the subsequent translation of presentation materials and lessons on making presentations.

### Technical standards:

We translate the standards of 12 automakers, suppliers, and organizations involved in the automotive industry. We maintain the highest level of confidentiality and offer translations adapted to each different house style.

### Patent publications:

When you need to know the details of an invention from multilingual publications, we will utilize our high level of expertise to faithfully translate the detailed nuances and expressions of the original text into Japanese.

### Multilingual translation:

We have experience in translating manuals, navigation systems, public relation materials, and various other documents in 34 languages.

### Curing your headaches:

Post-editing, face-to-face consultations, and more
