Toyota Technical Development Corporation (TTDC)

TTDC Donates Computers for Re-Use at Children's Care Facilities

Toyota Technical Development Corporation (TTDC, Head Office: Toyota, Aichi, President: Yoshiyuki Kagawa) has donated personal computers that it is no longer using to children's care facilities in Aichi Prefecture.

This donation is the latest fruit of an initiative that started in 2016 based on an idea raised by our employee-run Benefit Study Council. This idea proposed contributing to society using equipment that the company no longer has a use for, under the concept of bringing happiness to as many people in our local community as possible. Under this initiative, in this fiscal year, we have donated 35 computers to ten children's care facilities in Aichi Prefecture.

These re-used computers were cleaned, maintained, and restored at a community workshop by a team of people with disabilities. TTDC intends to continue supporting this program with the aim of bringing even greater happiness to people in care facilities.

To mark the occasion, we handed a record of the donated computers to Reiko Hashimoto, the head of the Bureau of Public Welfare, Aichi Prefectural Government. In turn, we were presented with a certificate of appreciation from the governor of Aichi Prefecture.
