

# Digital Development Support Using Driving Simulator

Evaluate performance quality without a prototype!

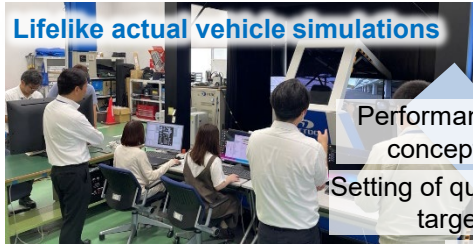

## Use Scenarios

### Dynamic performance evaluations

V-TiPS

Lifelike actual vehicle simulations

More efficient driving simulator use in the design phase!

### Studies of new controls

ADAS-DS

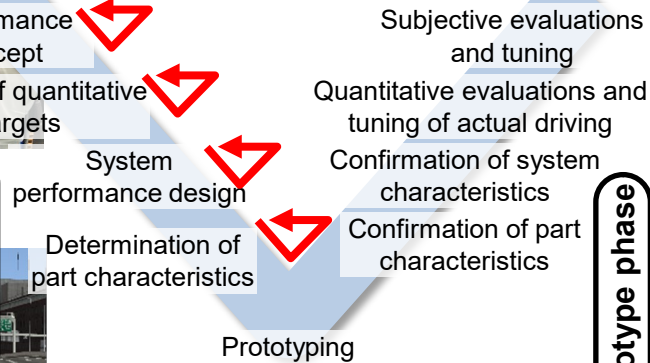

Studies of future trajectory of new controls

Design phase

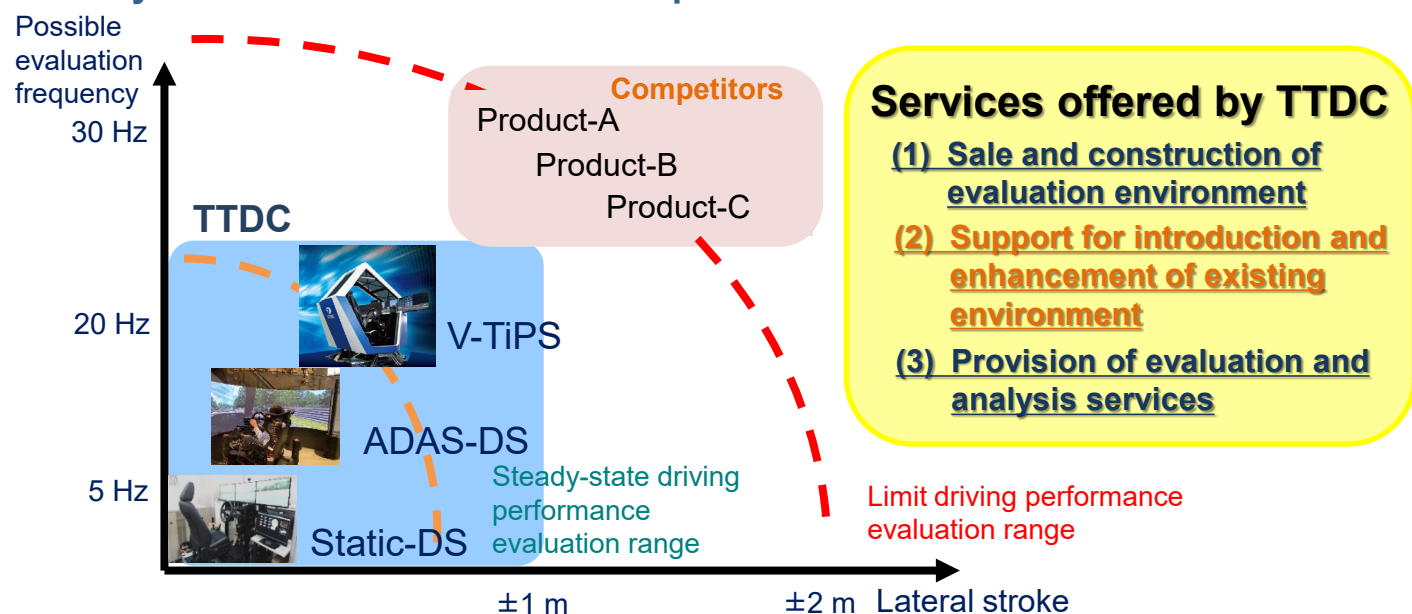

Prototype phase

Vehicle development process

## Resolve issues using a driving simulator!

Let us propose driving simulator-based evaluation processes tailor-made to your customers' evaluation requirements.

### Services offered by TTDC

- (1) Sale and construction of evaluation environment
- (2) Support for introduction and enhancement of existing environment
- (3) Provision of evaluation and analysis services
